KEEP WABASH UP TO DATE

Last, Wabash is still in the process of updating its alumni records. Please log into Alumni e-services (<http://www.wabash.edu/alumni/eservices>) to provide your most current information. This will help ensure that you are connected to not just the college, but to the rest of the class as your class agents work to keep everyone in the loop.

Again, thank you for reading! Be on the lookout for another letter next month.

Wabash Always Fights!

CLASS UPDATES

Jay Kirby: Although many of you may not remember Jay, he was in school with us until January 2004. In September of 2004 he was being fitted for a wheel chair and need to leave campus to battle a unique genetic metabolic disorder soon after. After years of not being able to sleep and dealing with constant tremors, he was has slowly been able to regain his ability to function. Like a true Wabash man, he continues to fight his disorder and anticipates being able to begin working next year. Although he cannot make it to Big Bash this summer, he looks forward to seeing us at our 15th reunion.

Dan Schubert: Dan and his wife, Jeannie Yuen, live in New York and recently celebrated the birth of their son; Daniel Schubert III born on March 16th at 5lbs 14 oz. Dan teaches mathematics in a public school in Manhattan and is a master teacher fellow with Math for America.

Ryan Thornberry: “After graduation I moved to Telluride for 4 years to experience some mountain life. Ever since then I have been hooked and despite the fact that I’m not quite living in the mountains Denver is close enough for me. In Denver I joined up with Yeti Cycles, which is a high end mountain bike manufacturer, and I am currently the Product Developer and Planner for all of our products. Check us out here: <http://yeticycles.com/> I am definitely excited to head back for the Big Bash this summer to catch up with all of the friends that I haven’t seen in a while and to see our campus that I haven’t been back to an a few years. I’m also giving one of the Colloquium talks about my job at Yeti Cycles.”
