**Off-Campus Study Credit Approval Request**

In the space below, list all courses that you may wish to take while you are abroad. List more than your schedule will hold in order to allow for substitutions in case some classes are full or unavailable when you arrive at your program site. Course changes that occur while overseas MIGHT NOT be accepted upon return because they have not been approved by Wabash College previously. Prior approval on this form by your academic advisor, department chairs, or Registrar (for distribution credit) will serve as preliminary approval of credit for all completed courses and will help ensure that you meet academic/financial aid enrollment requirements. Any course changes that occur off-campus must be reported to the Off-Campus Study Office immediately, if the course is needed to fulfill specific degree requirements. The OCS Office will then seek to obtain approval from the appropriate person/department immediately so that you may proceed with your studies.
