

# Wabash.

We take the health of our students and our campus community seriously at Wabash. Our nationally-ranked Student Health Center is staffed with a certified nurse practitioner from 8:30am-2:00pm, Monday-Friday, and a board-certified family physician visits Monday through Friday during the academic year. Incoming students are required to provide a health history using our electronic health records system, PyraMED. This includes mandatory immunization records.

International students must also have TB testing, consisting of a TB skin test or IGRA blood test.

## **REQUIRED FOR ALL STUDENTS**

- Documentation of the following childhood vaccinations:
  - Polio series (IPV or OPV) --four doses
  - MMR (measles, mumps, rubella) – two doses
    - The first dose must be given on or after the first birthday; the second dose at least 28 days later than dose #1
    - Titers may be submitted as evidence of immunity
  - Tdap (tetanus, diphtheria, acellular pertussis) – In addition to completion of the primary series, one dose within at least 10 years of enrollment date
  - Varicella (chicken pox) – two doses of vaccine OR laboratory proof of immunity for those with a history of disease
- Meningococcal ACWY (also called MCV-4) – two doses, at least eight weeks apart

## **STRONGLY RECOMMENDED FOR ALL STUDENTS**

- SARS-CoV2 (COVID)--receipt of a primary COVID19 vaccine series approved by the Food and Drug Administration (FDA) or World Health Organization (WHO); boosters recommended
- Influenza (we make flu shots available on campus for all students and employees each fall)
- HPV (human papillomavirus) – two or three doses, depending on age at first administration
- Meningococcal B – two doses --this type of meningitis is the most prevalent in Indiana, and has been associated with past college outbreaks
- Hepatitis A – two doses
