ECONOMICS

The Economics department recommends the following sequence of courses for first-year students who express interest in economics. Please contact Peter Mikek (mikekp@wabash.edu) if you have questions.

For students placing into MAT-111, Peter says either fall or spring semester is fine for ECO-101, as long as ECO-101 and MAT-111 are both completed in the first year. Students placing into MAT-100 and planning to major in Economics must take MAT-100 in the first semester, and MAT-111 in the second semester.
