April 2026

Looking ahead for the year

Fellow Classmates,

Hopefully everyone is surviving the winter (even those in sunny climes) and looking forward to a fruitful and happy 2026. As you know two of your three Class Agents are new at their responsibilities and as such have spent time pondering what might be interesting and maybe even helpful to our '63 Classmates. We are sure that all of us from time to time ponder "I wonder whatever happened to.....". Well maybe we can be of help. We can facilitate contacting Classmates by providing information like addresses, phone numbers, e-mails etc. and whatever data the College may have. We think there are about 80 Classmates still walking planet Earth and there are several widows that have warm feelings about Wabash. If you would like help in renewing connections with Classmates get in touch with one of us and we will pass along any information we have.

A second item that comes to mind is Wabash's annual Day of Giving in April. Our class has been quite supportive of this campaign in the past. Dollars matter, but what is especially important is percent participation. Forty percent seems to be a popular giving benchmark used in the Wabash community and indeed across colleges in the U.S. that is a very admired result. However how about the members of the Class of '63 turning down the screws on ourselves this year? Remember every gift no matter how big or small is important and demonstrates to the world outside of Wabash how unique and committed our Alums are. Any thoughts you may have on this subject would be appreciated and one way or the other we'll have a percentage giving goal for the Day of Giving!

As you remember from our last letter, our beloved Class Agents for the last 63 years took early retirement for health reasons. However, Alan and Bruce (Agents Emerti) continue to enjoy frequent lunches with some of us and have expressed a desire to stay in touch with you and all classmates. Please drop them a line or phone call when you have an excuse. They would love to hear from you, just as we would anytime you have something you would let us brag about in future class mailings.

WAF,
