December 2025

Dear '63 Classmates,

After many years (62?) of yeomen service two of our classmates, Alan Stanford and Bruce Polizotto have decided that enough is enough and will be resigning as Class Agents at the end of this year. We all extend our thanks to them for keeping our connection to Wabash alive and thriving over the many years since our graduation. In an attempt to fill their able shoes Rusty Nichols and Larry Hutchison have agreed to act as Class Agents in the future. Tom Billings, our third CA will continue, with the charge to keep the new appointees in-line.

The Class Agents letter of November 2025 gave a comprehensive description of the current activity of the College so at this time we will only add one footnote to that communication. The Class of '63 has been and continues to be a strong contributor to the Annual Fund. In fact in fiscal year '24 we had almost 50% of our class contribute which is an amazing level of participation. At the moment we are running at less than a 40% rate for this fiscal year. Now, before the end of the year, would be a good time to get back to that 50%+ level. Amounts are not important but participation makes for a wonderful Christmas gift to the College.

We hope this finds you and yours well and best wishes for a happy and joyful holiday season. We look forward to 2026.
