Dear Classmates,

November 2, 2026

From Rick Helm (a while ago):

Duane and Earl,

I was going to send a missive earlier, but... I just returned from a fishing trip to Wisconsin, with my usual foursome - average age 79.

Freida and I have been busy following grandchildren. Connor R. Craig '25 is finishing his Fulbright year in Spain and begins at I. U. Medical School in a couple of weeks; Garrett Craig is a Senior at Butler, joined by his sister Annie who will be a Freshman. Kelsey Moran will be a Junior at Franklin University and remains a goalie on the Lacrosse team (a dangerous hobby for sure) and Kyla is in her last year at Westfield H.S. and currently wants to play Lacrosse at any college "not in Indiana". Perhaps that will change?

I am, after a long exodus from January this year involving needle biopsy, a four day hospitalization from a pneumo-thorax (most boring experience of recent years), then two different targeted radiation experiences, to arrive at currently NED and off of all cancer meds. Amazing thing that they now have lineal accelerators the size of a large bread box and target photons to an area of a cubic inch or less! Thankful for medical science!!!

Our classmate (and my classmate at Rochester High School) Phil Kucinski told me recently he looks forward to seeing each other at the Big Bash in 2027, so let this be the next classmate mention encouraging attendance, if at all possible and health permits. Freida and I are planning to be there.

Regards,

Rick
WAF

Save the date. **Please attend the Big Bash Reunion on June 4-6, 2027.**

Let's see if we can equal or exceed our 50th in attendance, contributions, and fun!!

There are other, non-Wabash, events scheduled for that weekend. It is a good idea to make your hotel reservation ASAP. The Hampton shows up UNAVAILBLE on their website. (I am going with the Holiday Inn.)

In the meantime, let us hear from you: news, jokes, observations, whatever!

Duane
