June 2020

Dear 59ers,

Wabash College faculty and administration have worked tirelessly during the past ninety days to finish one school year and prepare for another, while ensuring that our young men get a quality education. All incoming and current students and the Class of 2020 have ongoing Zoom or phone contacts from faculty, coaches and other staff. The new Wabash web-site is focused on recruitment, but by going to wabash.edu/studentlife/coronaviruswabash you can find plans for the Fall semester as well as other news.

While we will miss President Greg and Lora Hess, incoming President Scott Feller and Acting Dean of the College Todd Mc Dorman will keep Wabash at its current and constantly improving path, as they have played key roles in achieving high goals over the past seven years.

The new stadium construction is on target for completion by the first football game. Crews have installed the artificial turf this past week. The track for running events will be greatly improved. You can follow the progress on the College "EarthCam" at sports.wabash.edu. I do a drive-by at least weekly and an on the ground close-up every few weeks.

Many colleges and Universities want the young men whom we seek to recruit. Please give Admissions the names of potential High School students, as many of you have done in the past.

Roger, Bob and I thank all of you who have given during the current school year.

Craig
