HAPPY NEW YEAR (DECADE!!!)

Dear Many Miler,

Well, we will soon have lived in TEN decades! Wow! Never thought that would happen. We reflect over this long span with joy and appreciation for the positive things that have happened, not to include Washington DC!

The Little Giant basketball team recently defeated Greenville at a tournament by the score of 137 to 131 with a record 67.5% field goal shooting. Also shot 66.7% of 3s (4 of 6). The rest of their season has had some highs and lows, but time will tell. After losing to Rose-Hulman, their record is 6-4.

Not sure that the final would be different, but the ref called our receiver out of bounds, thus negating a touchdown. After a field goal, DePauw made a quick touchdown, so they get to keep the Bell in

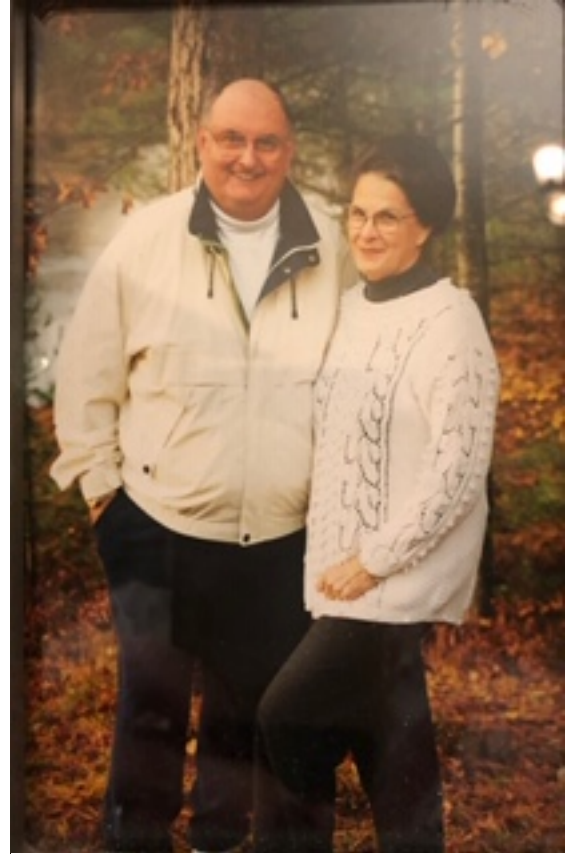

Greenydinge. In the photo, the white line is OB! Final score: W 13 – D 17. It was actually a rather disappointing display of offense on both teams. Wabash faced North Central (IL) in the Div III playoffs. And pretty

much got a lickin'. North Central knocked off Mount Union and Wis. White Water and will play in the Stagg Bowl Dec 20. It has been a while since Wabash football lost 4 games in a season.

Wabash Soccer team wound up 10-6-3 for a good season. They earned a berth in the Conference tournament, losing by 1 goal against Ohio Wesleyan, whom they had defeated during the regular season.

Jay Moore reports that he and Nancy have moved into a retirement village and have a cottage in Rock Hill, SC. He also happily reports that they are both currently in good health!

From: Die Laughing calendar....

After church one Sunday morning, the preacher takes Randall aside congratulates him on his eightieth birthday, and gently suggests that it's time for him to be thinking about the hereafter.

Believe me, I think about it all the time, says Randall. No matter where I am - in the kitchen, the living room, the bedroom, I ask myself, "Now, what am I here after?"

Every week, we are reminded that our friends are incurring health issues. We are so fortunate to have survived past the average length of life (especially Joe Kiley who is 85!) Keep us in the loop if you hear of or face rough times regarding your health.... We hold all cancer victims in our prayers.

Wabash College continues to gain national attention for the great things which are going on with our faculty and students... The retention of freshmen into the sophomore year is among the highest in the USA. The graduation rate has soared since our day when we went from 212 Many Milers to a mere 112 who graduated! And, our class is now about to drop to below 100 living

classmates! I appreciate you, each and every one. We hope you have a Healthy New Year!

Remember Wabash as you finish out the year!

Many Miles Before the Night.....
