

Wabash College Gentleman's Compact

As a Wabash College student, I agree to do my part to minimize the medical risks to me and others associated with being on campus during the COVID-19 pandemic. I will hold myself to the highest standards of the Gentleman's Rule, responsible citizenship, and mission of the College, and I will comply with all requirements that the College may establish for my and others' safety from time to time. My presence on campus for the 2020-21 academic year signifies my agreement and consent to the following requirements, which are conditions to live or learn at the College during the 2020-21 academic year:

- Wearing a mask or face covering at all times in public;
- Practicing excellent personal hygiene measures, including frequent handwashing, physical distancing at all times on campus, sneezing and coughing into my sleeve or elbow and not into my hands, and keeping my clothing, personal belongings, and living space clean;
- Monitoring my personal health daily, entering my data as the College directs, including in a College-approved app for contact tracing purposes, reporting symptoms promptly, and staying in my room if I develop symptoms;
- Being tested for COVID-19 if requested by the College, including if I develop symptoms, or as part of any campus-wide random testing program. If I get tested elsewhere, I will inform the Student Health Center of the results to maintain confidential campus medical data;
- Getting a flu shot (provided for all persons in the Wabash community);
- Traveling and packing light because I may have to leave my room or living unit if I get sick or if my roommate or others become ill, and maintaining a Quarantine Kit with essential items I may need if I must go into isolation;
- Protecting others in the Wabash community by following the College's posted guidelines for hosting guests and/or traveling away from campus; and
- Cooperating with the student health officer in my living unit and abiding by standards set by my living unit and the College.

Compliance with this Gentleman's Compact is required; failure to comply may result in discipline. This Gentleman's Compact is likely to change as public health officials issue additional guidelines; changes will be communicated to the Wabash community through email, websites, or signage.
