Alpha Rotation for Pre-Registration

Pre-registration for the next semester occurs during a one-week period in the current semester – typically in early November for the following Spring, and early April for the following Fall.

For every *Fall* or *Spring* pre-registration period:

- Monday of pre-registration week is open only to seniors
- The pre-registration period opens for all other students (regardless of class level) on either Tuesday, Wednesday, or Thursday of that week based on the first letter of the student's last name. The first day of pre-registration for each of these groups rotates with each semester as shown in this table.
- Friday of pre-registration week is open to all students

When *summer* courses are offered at Wabash:

- The registration period opens on the Monday following the week of Fall pre-registration in that semester
- Initial registration is by invitation only, from the Dean of the College
- Remaining seats after initial registration are open to all students

As pre-registration week approaches each semester, all students will receive an email with the specific time their pre-registration window opens on their assigned day.
