Independent Study Form

Student's Name: _____ **Class Year:** _____

Major(s): _____ Minor(s): _____

_____ _____

_____ _____

Term: _____ Course-#: _____ Credit: _____
(e.g. HIS-101) *(1/2 or 1)*

Title of Study:

_____

(If blank, it will be listed on the transcript as "Independent Study." Titles have a maximum of 30 characters.)

Rationale for Independent Study

Attach additional documents as needed. You will need the assistance of your supervising faculty member to complete these responses.

1. Describe the topics to be covered and the work to be completed as part of this study, i.e. provide a comparable description to what would be found for a typical course in the Wabash Academic Bulletin. Include the method of evaluation for the study, e.g. portfolio of student work, reflective essay, etc.

2. How will the study be evaluated? (Series of papers, final paper, portfolio, presentation, etc.)?

3. Identify the student learning outcomes for this independent study ("Upon completion of this study, the student will be able to . . . "). Typically, 3-5 outcome statements will be sufficient.

4. Will this independent study course apply toward the fulfillment of a ***distribution*** requirement in the student's program? ☐ Yes ☐ No If yes, which one(s)? _____
   If yes, show which outcomes listed in #3 above align with which of the distribution requirement's student learning outcomes. (Distribution outcomes are available at http://bulletin.wabash.edu/curriculum/curriculum/).

Printed name and Signature required

Supervising Faculty: _____ Student Advisor: _____

Department Chair: _____ Registrar's Office: _____
