Trippet	123	12	2	YES	VGA	YES	YES		YES	YES					

NOTES:

This list only includes classrooms (and new classroom spaces) scheduled for classes in FA/20.

The "student cap" column is the socially-distanced student capacity for FA/20.

Items marked in YELLOW have not yet been deployed. We are still waiting on delivery of some components, and will complete installation as soon as we are able.

The "sound system" column indicates the room has a dedicated sound system capable of broadcasting the speaker's voice to the room. All classrooms have sound systems (or speakers on the projection cart) for program sound from computer or DVD. For rooms without a dedicated sound system, it is possible to broadcast the speaker's voice using available USB wireless headsets; contact the Help Desk for details.

A number of classrooms have been upgraded this spring or summer. Upgrades are described in the "upgrade notes" column.

While we've made every effort to provide accurate information, this document will be updated as we approach the start of the semester and continue our classroom upgrades. For example, more classrooms have Apple TVs than this document currently suggests.
